

THE HUMANE SOCIETY NO LONGER ACCEPTS FERAL CATS. They are endorsing TNR (trap-neuter-return) programs as the best way to handle the feral cat problem. PAWS conducts TNR clinics at the Swatara Township Public Safety Building on a monthly to bimonthly basis.

**PAWS operates these free spay/neuter clinics for homeless cats in order to humanely reduce the number of unowned or free-roaming cats in our region. By utilizing this program, residents can eliminate many of the nuisance behaviors of cats in their neighborhoods and on their properties such as reproducing, fighting, spraying and mating. This allows their numbers to decline naturally over time. A PAWS volunteer can offer advice and guidance on trapping cats for TNR. Residents may click on the following link to go directly to the on-line scheduler for these appointments.**
