

STEELTON BOROUGH COMMUNITY CATS

If you have feral cats in your area, contact Steelton Borough Community Cats at 717-877-4146 to register for a trapping session. They will humanely trap the cats for surgery, administer vaccines and return them. Any resident of Swatara Township is eligible for this service. For more information about Steelton Borough Community Cats and its mission, visit www.steeltoncats.org.

Swatara Township, in cooperation with the Steelton Borough Community Cats, is seeking volunteers to trap, transport, help treat and return feral cats as part of their spay, neuter, release program. This program will address the feral cat problem in Swatara Township in the most humane way possible. Steelton Borough Community Cats has run a very successful program to reduce the number of feral cat births within their community. The Swatara Township Board of Commissioners recognizes this program as very effective and humane and is looking for interested parties to volunteer to help with the spay neuter release program. There are various positions in which volunteers can serve to help these cats and their community. Please call 717-877-4146 if you would like to volunteer.
