

The Swatara Township Board of Commissioners held the Regular Meeting II on Wednesday, March 9, 2016, at the Swatara Township Administration Building, 599 Eisenhower Boulevard, Swatara, PA 17111. President Troxell called the meeting to order at 7:00 p.m. with the Pledge of Allegiance, followed by a prayer.

1. Roll Call: Members of the Board present were: Commissioners Troxell, Connolly, Bouder, Chiavetta, Milakovic, Moyer and Varner. Also present: Township Manager LeBlanc, Solicitor Wyland, Police Chief and Sergeant-at-Arms Umberger, Fire Marshal Ibberson, and Acting Secretary Peck.
2. Motion to Approve Agenda: Commissioner Chiavetta made a motion to approve the agenda with the exception of Item No. 20. Commissioner Connolly seconded the motion and the motion carried unanimously.
3. Presentation of Proclamation to Red Lion Hotel: Commissioner Chiavetta presented a Proclamation to the Red Lion Hotel for their service in supplying food and lodging for the volunteers during the snow storm Jonas.
4. Presentation of Officer of the Year Award to Officer Patrick Corkle: Chief Umberger presented the 2015 Officer of the Year Award to Officer Patrick Corkle. The award is selected among the command staff of the police department. Officer Corkle came, as a 15 year veteran from the Paxtang Borough, to the Swatara Township Police Department in 2015, as a result of the Township's Contracted Services Agreement with Paxtang Borough.
5. Consideration of Minutes:
 - A. Regular Meeting I - March 2, 2016: Commissioner Connolly had a correction on page 2, under Commissioners' Comments, where Commissioner Connolly's last name was misspelled with an "e" instead of an "o". Commissioner Connolly made a motion to approve the minutes of the March 2, 2016, Regular Meeting I, as amended. Commissioner Chiavetta seconded the motion and the motion carried unanimously..
6. Visitors' Requests and Comments:
 - A. Bob Rodasovic, 44 N. 46th Street: Mr. Rodasovic reported that on February 26, he received a letter from the Sewer Authority regarding a visual inspection results of a point of connection of his sanitary sewer lateral to the sewer main

was performed and was found to be a source of infiltration which is prohibited. Mr. Rodasovic said he found this very hard for them to make a visual inspection when the road was not dug up, which is the only way you can do it. He asked the Board to go to the Authority and find out what's going on. The neighbors need an answer from the Sewer Authority on what is going on. President Troxell said they would make sure they would get hold of the Authority and get a response for him.

- B. Rudy Pavlic, 681 Mohn Street, Bressler: Mr. Pavlic said there was a rumor, or suggestion made on the Bressler School Property that they were perhaps selling it and feels it is a dumb idea. First of all, the property has a playground and Bressler would lose a playground. All the other communities have a playground and he doesn't feel they are second class citizens that a playground ought to be taken away. No one has been able to figure out, and no one has been told what the reason was for selling the property. There actually isn't a reason for the Township to sell it. If the property can be used, by organizations that are interested in buying it, the Township could make some kind of arrangement to rent, or lease. But if the property is needed they can always get it back and that would be a stipulation. Please don't vote to sell that property.
- C. Lisa Robinson, 6120 Chatham Court: She asked about the reapportionment, it was quite an item for the election, the foundation of some discussion and it has been going on for several months. Her understanding is there was a vote from this Board to go at large. So, her question to the Board is, it was her understanding that there was a company that was hired independently to do their own information gathering. She said she checked the minutes for information about it and a verbal report is the last she saw mentioned. She could not find the verbal report, it wasn't in the minutes.

President Troxell said that is being handled through a contract that we had established, in the minutes, and at this point they haven't had any work done yet. At this point it's not ready for review. Ms. Robinson asked if that information will then be made public? President Troxell said, yes.

Ms. Robinson asked about the hiring process for the new manager. She did not see any public announcement that Mr. Cornell had left his position, or what the process was for hiring a new manager. She wasn't sure it was something that the public can be given, such as a résumé, and if she feels she needs to file a right to know. President Troxell said she could file a right to

SWATARA TOWNSHIP
REGULAR MEETING II
BOARD OF COMMISSIONERS

MARCH 9, 2016

know for those materials. Since it's being a professional service, under the code it's stipulated where it does not have to go through the other portion of the code's hiring practices.

- D. Bob Rodasovic, 44 N. 46th Street: He asked, based on that answer, and point of clarification, since the manager's position now, as you've established it, as a contractor's position, professional services. It's a contract. President Troxell said, just to let you know, this is a time that is called for a visitor request and comments. He will not be debating anything from the podium. Mr. Rodasovic said he was not debating, he was asking for a point of clarification whether it was a contractor's position, or an employee's position? President Troxell said it is a Professional Service position, a contractor's position. Mr. Rodasovic asked why is the Township paying benefits? President Troxell said it was a professional position and he was not going to argue. Mr. Rodasovic said it was either a contracted position with no benefits, or it's an employee's position with benefits, which one was it?

Solicitor Wyland said in the First Class Township Code, Section 1502 §4 it describes the position of Township Manager and everything about the position. So, he can look there, if he likes, and it gives the details of what the position is like and how it's characterized. Mr. Rodasovic asked whether it was classified as a professional position, or an employee's position? Mr. Fosselman doesn't get any benefits, does he? President Troxell said that was none of his concern.

7. Reports:

- A. Monthly Departmental Reports: The Monthly Departmental Reports will be posted on the bulletin board out front for the public to review.
- B. Committee Reports:
1. Commissioner Connolly read the Swatara Township Parks and Recreation Report for February 2016. A copy of the report will be posted on the bulletin board.
 2. Commissioner Milakovic read the Swatara Township Highway Department Report for March 2016. A copy of the report will be posted on the bulletin board.
- C. Treasurer's Report: President Troxell reported that the Treasurer's Report is

not available at this time and will be available at next month's meeting for the Board's review.

- D. Fire Services Report: Fire Services Director Ibberson read the Fire Services Report for February. He reported that the Board and the public need to be aware of how hard the Fire Department has had to work over the last month and a half. It was an extreme start to the year, not only for Swatara Township but the surrounding municipalities also. For February 2016 the calls by station, for an actual total of 100 responses for the Township Fire Departments for February of 2016, with an average turnout for personnel per station:

Bressler	47	(5)
Lawnton	55	(6)
Rutherford	41	(7)
Swatara	53	(5)
Chambers Hill	51	(4)

A more detailed report will be posted on the bulletin board in the hallway.

- E. Manager's Report: Township Manager LeBlanc read the Manager's Report for March 9, 2016, with an update on the 63rd Street Bridge, the Bishop Tract water line, Highway crew review and modification of the design of the proposed public works building. The Brisban/Rutherford/Derry Street mitigation scheduled to be closed out in June, with a check, in the amount of \$418,284 which should be received in six to eight weeks. She discussed the branding of the township regarding seals, font, layout, with fire companies using a different seal. Also, stationary, business cards, memo's etc., and the update of the newsletter and website. She discussed the preparing of terms of a lease agreement with the Sewer Authority, the Solicitor's research for the correct date for the expiration of the York Waste Disposal contract May 21, 2016. Job descriptions for the staff are being updated, identifying other skills/expertise, identifying desired training. Staff beginning succession planning on each piece of equipment. Staff updating and supplementing Township website information in preparation for the new website. A meeting with Rev. Harvey and Friendship fire Company president is scheduled for April 1, at 3:00 p.m. Special presentations for TurnKey Taxes, K&W MS4 Program; Terry Watts rental ordinance program.
- F. Codes Report: Building Code Director Everett reported on the Codes Department activities for February:

15 Building Permit Applications
12 Zoning Permit Applications
47 Inspections completed under permit
11 complaints received and addressed

OLDS Report: A copy of the February OLDS report will be posted on the bulletin board. The OLDS Program is currently in the third pump cycle for District 2, which runs June 2015 through June 2016. District 2 currently has 501 properties.

Humane Society: Zero animals surrendered to the Humane Society for the month of February.

Department Highlights: Macy's has gotten a permit.

Adopt a Storm Drain Program for neighborhoods for pledges to keep an eye on the storm drains.

G. Chief-of-Police Report: Chief Umberger reported on the police activities for the month of February. The police officers handled a total of 1679 calls for service for the month. A breakdown of calls is shown on the monthly report posted on the bulletin board.

The full report of police activities in schools, with juvenile and adult probation checks, and other community events is also posted. Chief Umberger informed the Board that the police department is now carrying the naloxone hydrochloride for the use with drug overdoses.

Chief Umberger reported they were exploring two grants, one in the Pennsylvania Gaming Control Board, where the department could receive up to \$150,000 annually, and a Department of Justice Grant. Commissioner Chiavetta asked with the naloxone, what is the liability? Chief Umberger said that legislation has been passed that gives them qualified immunity. It is very safe.

8. Consideration of Hiring: Custodial Position: Commissioner Bouder reported that multiple candidates were interviewed for the position of custodian for the township building. This is a Grade 1 position under the current AFSCME Collective Bargaining Agreement. Commissioner Bouder made a motion to hire William Hoyer as the custodian for this municipal building, pending successful completion of a background clearance. Commissioner Connolly seconded the motion and the motion carried unanimously.

9. Consideration of Request to Close Road: Jatin Patel, 49th Street: Chief Umberger

REGULAR MEETING II

SWATARA TOWNSHIP

MARCH 9, 2016

BOARD OF COMMISSIONERS

reported that a request had been received from Jatin Patel, 4821 Lancaster Street, requesting approval to block North 49th Street between Chestnut Alley and Lancaster Street, from 9:00 a.m. until 8:00 p.m. on Sunday, June 19, 2016, for an outdoor religious festival during a neighborhood block party. Chief Umberger asked the Board's approval of closing that street, it is per our ordinance and the highway department will be able to drop the barricades off. Commissioner Chiavetta made a motion to approve the request. Commissioner Milakovic seconded the motion and the motion unanimously carried.

10. Consideration of Request Mohn Street Special Purpose Parking: Chief Umberger presented to the Board a request for consideration for a handicap parking space at 803 Mohn Street, for Cassandra Guerrero. The handicap space will be for her son. An investigation revealed that her son qualifies for the handicap parking space and there is no off street parking available for her. The owner of the property, Doug Rowell, has no issue with this space being placed in front of this property. However, because of the parking situation along the area of Mohn Street and a fire hydrant in the vicinity of the request, the space would encroach on the frontage of the neighbors at 805 Mohn Street. The neighbors, Laila Elfallah and Elarbi Charioui, have reservations about this spot being granted as it would cause them to park a significant distance away from their home. As both parties are in odds with the placement of the parking space, he presented this to the Board for their consideration. Commissioner Milakovic made a motion to approve the request of Cassandra Guerrero for handicap parking. Commissioner Connolly had a question in that the legal requirements have been met and then the conversation with the other residents. He feels there would be more of an issue if we didn't do this when it was a legal requirement. Solicitor Wyland said it was not a legal requirement. It passes legal muster if you choose to do it, but that does not create an obligation to create the space on the part of the Township. Commissioner Connolly seconded the motion. Commissioner Moyer asked to see the photographs of this location. Commissioner Varner asked for a possible tabling of this motion so this could be checked out. Commissioner Milakovic recalled his motion to approve the request and Commissioner Connolly recalled the second to the motion until further investigation is done. Commissioner Varner made a motion to table the request of Cassandra Guerrero with a second from Commissioner Moyer seconded the motion and the motion unanimously carried.
11. Discussion of Traffic Signal Left Turn Lane: High Pointe Commons and Lindle Road: Chief Umberger and Lieutenant Stauffer presented the Executive Summary for the Lindle Road traffic signal permit revision, at the Chick-Fil-A restaurant at 4661 Lindle Road. The issue was highlighted for the Board and to resolve this

SWATARA TOWNSHIP
REGULAR MEETING II
BOARD OF COMMISSIONERS

MARCH 9, 2016

issue, the traffic study recommended that left turn arrows be installed at the intersection for northbound and southbound motorists. It is also recommended that the northbound traffic signal and southbound traffic signal operate independently of each other. These recommendations would eliminate the issues at hand and greatly increase the safety of the intersection. The changes required at the intersection can only be accomplished through a revision of the traffic signal permit, which would be investigated and submitted by the Township engineer. A traffic study will have to be conducted by the Township Engineer and submit the results of the study and the recommendation to PennDOT. Commissioner Moyer said it would be easier if this was caught at the Planning Commission phase. President Troxell referred this to Township Manager LeBlanc to pursue this in an expedited fashion and to contact all parties pertaining to this issue.

12. Consideration of Request: Police Ride Along - Ricky Huffman: Commissioner Connolly presented the Ride Along Request, by Ricky Huffman, for a one day ride along with the Swatara Township Police Department. Mr. Huffman passed his background checks. Commissioner Connolly made a motion to approve the request for a one day ride along for Ricky Huffman. Commissioner Chiavetta seconded the motion and the motion unanimously carried.
13. Authorization to Execute Contract: Building Codes Services to Paxtang Borough: Building Code Director Everett presented the Inter-governmental relationship with the Borough of Paxtang and her meeting with Paxtang's Manager, Mrs. Stambaugh and reviewed the Borough's needs and how it would affect the Township at this time. The Borough has all the needed ordinances and the Township has all the staff and certifications to provide the services. Since the Township is short staffed at this time, Paxtang has agreed to a progression of services and a review every three months to go over what is or is not working for this agreement. The Borough has agreed to pay hourly for the Township's services on an as needed basis. The hourly rate has been established by the Financial Director, Jim Fosselman. The Township's BCO Everett will be the official designated BCO for the Borough under PA Labor and Industry. The Township's Zoning Officer Hardman will also be designated zoning officer for the Borough. Swatara Township will track and bill hourly directly to the Borough and keep accurate records and supply the Borough with detailed reports monthly. The Borough will also continue to not enforce their rental property ordinance, until such time the Township is ready to proceed with the enforcement. This agreement will be left open ended and can be terminated at any time by any party with the property notice.
Commissioner Chiavetta made a motion to authorize taking the next step and

creating an agreement for the Board's consideration. Commissioner Varner seconded the motion and the motion unanimously carried.

14. Authorization to Advertise for Adoption of Property Maintenance Code:

Commissioner Chiavetta presented the Consideration for Adoption of the 2015 Maintenance Code for the Board's consideration. Codes Director Everett stated that this code is updated every three years. The Solicitor has reviewed the proposed ordinance adoption and has concluded that under the First Class Township Code, a hearing is not required. Only one time advertising and certain viewing criteria are required. Codes Director Everett requested that the Codes Committee move to request approval to advertise for this ordinance to be adopted at the April Board of Commissioners meeting. Commissioner Moyer had questions regarding if there were conflicts between the existing ordinance and what is done by adopting this? Solicitor Wyland said not to his knowledge. Commissioner Moyer asked on nuisance issues, whether there are ordinances that address it? Yes, they're not enforceable, but does that conflict that we carry an ordinance? Do we need to change our ordinances with the adoption of this? Solicitor Wyland said that is a legitimate concern that is addressed in Section 3 of the draft ordinance, that says if there is anything already on the books that's inconsistent with this, International Property Maintenance Code 2015, then that other provision is repealed automatically. So, this supersedes. The intention is anything that's addressed by this code, it supersedes any other parts of our codes that may address that. After a lengthy discussion, Commissioner Connolly made a motion to authorize the advertisement for Adoption of Property Maintenance Code. Commissioner Chiavetta seconded the motion and the motion carried with Commissioner Moyer abstaining due to a lack of information.

15. Authorization to Execute Lease with Norfolk Southern: Solicitor Wyland presented the Authorization to Execute a Lease with Norfolk Southern for the Board's consideration. This has been reviewed and Solicitor Wyland commended HRG for having the foresight to run this down with the Commission staff and make an argument that there is really a lack of betterment in terms of the capacity of the facilities that are being rehabilitated there, which caused the PUC staff to waive off the requirement that would be involved to get approval. There is an agreement to Part C, to the Exhibit C, for the contract, which is the Contract to right of Entry Agreement. The Township would require their contractors to execute that in favor of the railway when they access the property. Commissioner Milakovic made a motion to approve the Authorization to Execute the Lease with the Township and Norfolk Southern. Commissioner Moyer seconded the motion and the motion unanimously carried.

16. Authorization to Advertise 63rd Street Bridge Project: Commissioner Milakovic made a motion to advertise for bids for a Maintenance Project for repairs on the 63rd Street Bridge. Commissioner Moyer seconded the motion unanimously carried.
17. Subdivision/Land Development Plans:
 - A. Final Subdivision Plan of Stewart P. And Theresa N. Kulina, Revision, February 29, 2016, No. 2016-01: The property is located at 7754 Chambers Hill Road, Harrisburg, PA. The plan redesigns property lines to three lots. The plan was recommended to the Board of Commissioners for approval on March 1, 2016 with the following conditions and waivers: All Staff, Township Engineer and Dauphin County Planning Commission comments, as discussed at the meeting, are addressed prior to being placed on the Board of Commissioners' agenda. Waivers requested were:
 - (1) Preliminary Plat Requirements, Section 253-10A: Commissioner Connolly made a motion to approve the waiver request for the Preliminary Plat requirements. Commissioner Milakovic seconded the motion and the motion unanimously carried.
 - (2) Erosion and Sedimentation Control Plan, Section 253-10-A.(1)(a): Commissioner Moyer made a motion to approve the waiver request for the Erosion and Sedimentation Control Plan. Commissioner Milakovic seconded the motion and the motion unanimously carried.
 - (3) Curbs - Section 253-32: Commissioner Moyer made a motion to approve the waiver request for curbs. Commissioner Milakovic seconded the motion and the motion unanimously carried.
 - (4) Sidewalks - Section 253-32: Commissioner Connolly made a motion to approve the waiver request for sidewalks. Commissioner Chiavetta seconded the motion. A roll call vote was taken with five yes votes and two nay votes, with Commissioners Milakovic and Moyer voting no. The waiver was granted with a five to two vote.

Commissioner Connolly made a motion to approve the Plan of Stewart P. And Theresa N. Kulina, Revised dated February 29, 2016. Commissioner Milakovic seconded the motion and the motion unanimously carried.

SWATARA TOWNSHIP
REGULAR MEETING II
BOARD OF COMMISSIONERS

MARCH 9, 2016

18. Appointments to Boards and Commissions: Commissioner Connolly reported that it was discussed at the Recreation Advisory Board meeting to fill the spots on that board. The committee is looking to trying to fill the vacancies during a relatively short period of time and will try to fill them based on the neighborhoods that vacancies exist and where possible. If not possible, maybe from the next boundary. It looks like there are seven vacancies on the Recreation Advisory Board. Commissioner Connolly said he had no problem putting that out on the website. If people are interested we can get some names. They do have a Recreation meeting maybe we can get some names there. No one will be put anybody in any of those spots at this time.
19. Any Possible Stormwater Violations We Need to Investigate: No stormwater violations at this time. President Troxell reported that there will be a presentation at a future date regarding what the program is all about.
20. Visitors' Requests and Comments:
 - A. Treasurer Joe Donato, 701 South Harrisburg Street: Treasurer Donato reported that he had distributed a small handout to the Board. There are very few times during the year that he can give any kind of update with the interim bills in the beginning of March, and then again in August. Treasurer Donato read the Status Report of Real Estate Tax Collections for 2016, for March 9, 2016. President Troxell stated that if Treasurer Donato wanted to submit this every month, he could. Treasurer Donato said he would gladly give the Board what they need. Commissioner Connolly asked if there were any appeals? Treasurer Donato said he was not aware of any.
 - B. Lisa Robinson, 6721 Chatham: Ms. Robinson had a follow-up on the Manager's Report. There was mentioned about the website being updated and she noted that the Manager's name was not on there currently. Township Manager LeBlanc said the new one has not gone live and the administrator of the IT just hasn't gotten around to it. The new website will look much more like the newsletter does.

Ms. Robinson said the classes that she mentioned, the first Wednesdays, about the TurnKey Taxes, are they for the public? Township Manager LeBlanc said, yes, it will be at this setting. She thought there would be one a month on a special topic. She just wanted to put out that if there is a courtesy if that spot is granted next month, that there's some kind of conversation again with those neighbors. She feels sure he would, but she's not sure between all the

SWATARA TOWNSHIP
REGULAR MEETING II
BOARD OF COMMISSIONERS

MARCH 9, 2016

controversy and fighting over less mundane as a parking spot. I don't know if there are any issues, but she thinks they would appreciate that, too.

Ms. Robinson said the business that you show the Lindle Road and the issue, as Commissioner Moyer mentioned, needs some pre-work and maybe would have saved us a lot of money to have the correct amount of a donation to show the impact. Commissioner Bouder made a comment that the previous administrator asked HRG to do a survey and she wondered if there was actually survey work done? I know it was alluded to use a background information that you have, so she was just trying to get clarity on that comment. Mr. Kenworthy said there was a discussion with the previous administrator, there was no direction to perform any work at that time though. Background information he was referring to was that provided by developers in that area that was PennDOT, that were adopted.

- C. Bob Rodasovic, 44 N. 46th Street: Mr. Rodasovic said that based on the presentation that was done here for the Lindle Road project, that the police department should look at Chambers Hill Road and Paxton Street. That intersection is ten times worse than what we just saw tonight and we are lucky we have not had any serious accidents at that intersection. There is a great deal amount of more traffic that flows through there. The way those signals are set up right now it's simply amazing.

Mr. Rodasovic asked what was the status of the paving project? Is the Township going to be doing paving this year? He thought last year in the budget process there was this big paving project that was approved for certain roads, especially the one in front of the fire house on 46th Street. He asked what they were going to do with that? Commissioner Milakovic said there would be a highway committee meeting on Wednesday, March 10. Commissioner Connolly said that the State Rep in the area of the intersection you're talking about, John Payne, he had held a couple transportation summits that elected officials went to, but that is really on the radar, that state highway. Again, it was a ten year plan, but he doesn't know where they are at on the plan. It definitely is considered a very hazardous intersection. And obviously it has been, but with the funding that he saw, and he thinks Mr. Rodasovic could go on line and look at the ten year plan, that was one of the projects that addressed the cost, which came out of the Transportation Bill, We had a couple increases in the gas tax and fees at PennDOT. So, the commissioners from Swatara Township, were there lobbying for that, because it's in their township. Commissioner Connolly didn't want Mr. Rodasovic to think that they don't have the same concern, and they're doing what they can.

- D. James Shreffler, 6921 Somerset Street, Rutherford Heights: Mr. Shreffler recommended that the man who had a problem with the Sewer Authority, should come to the Sewer Authority meeting next Wednesday night and present his problem to the superintendent of the Sewer Authority. It stars at 7:00 p.m.

21. Commissioners Requests and Comments, Additional Business:

- A. Commissioner Moyer asked Township Manager to have the staff ensure that the hearing room is properly set up with the correct temperature.

Commissioner Moyer congratulated Officer Corkle on the year that he had and being a new officer on the Township force. He felt he really set the Board high for people coming on there.

Commissioner Moyer said that Norfolk Southern was using a egress road that exited on Grayson, Paxton Street, right next to Feesers, and he thought that was supposed to be closed after a period of time. A week ago there was nothing shutting that off. A lease agreement may be needed with Norfolk Southern. Let's execute the lease agreement and make sure they sign it, then the Board should ask when that road is going to be closed. Township Manager LeBlanc said she had met with Rudy Husband from Norfolk Southern and on March 21, they are going to begin using the former Triple Crown entrance at the far end. At that time they may be getting rid of this. The other thing she discussed with Mr. Husband, was about the flooding that is occurring on Grayson Road. He indicated he would give her a head's up when their engineer would be coming out from Pittsburgh, so our engineer and their engineer and our highway road crew can get together and try and come to some resolution on how we're going to deal with all this flooding. The third item over there, she guesses is from the flooding, but the manhole lids are not on the structures. A child could fall in them as their large and their metal. His response to her since then has been that the local manager is checking to see if it's theirs. If it isn't theirs, it's the Township's, but she believes it's theirs. Commissioner Moyer asked if they told her that effective March 21, that they would not be using that? Township Manager LeBlanc said they will be using the other entrance and they didn't give a date, but she will follow up with him on that. Commissioner Moyer asked President Troxell if that was a temporary road, or a full access road? President Troxell said that road should never have been authorized. Commissioner Moyer said it was authorized while they were doing construction, it was a construction access road and that was all it was ever meant to be, and they just kept on pushing the envelope and he is asking

that the Township put up barriers to close it at some point.

- B. Commissioner Bouder thanked Chief Umberger and Lt. Stauffer for taking the bull by the horns with the situation up at Chick-Fil-A and Sheetz as he observes it everyday. Everyday it is full of vehicles and it is a problem that has to be solved.
- C. Commissioner Connolly said that prior to finding out how much traffic we were going to have, he thinks there was a very good showing from a lot of different areas in the Township, including the administration and staff, police and fire and some elected officials on getting involved in being at the opening of Chick-Fil-A so we certainly wish them success, but we want everyone who goes there to be safe. While he was there, there was a large contingent of volunteer firefighters and every one of the five companies in the Township were represented at Chick-Fil-A. That is a great show of support during the daytime hours. It was a nice event. Later that same night there was a very large fire in the Chambers Hill area and just going through a news account of it, a local person had responded and taken a picture and that person was credited with the picture on ABC-27 News. Scrolling through some other pictures he saw a tremendous amount of firefighters and apparatus that they had there. The same people were at something really nice and fun and good for the community grand opening were then hours later, in the darkness, they laid their life on the line to help the community. Commissioner Connolly wanted to thank them for that. Mr. Ibberson takes a lot of pictures and maybe we could get more of them on Facebook. Commissioner Connolly thanked the Highway Department on the mid-term maintenance season, assuming that since it was 82 degrees today and hoping they are done with that. But it wasn't a year ago when we had a lot of storms over a long period of time, but we were tested with a very heavy storm. He appreciates the work and hopes that is over and they can head into the spring maintenance. Finally, he thanked the people that came out tonight. He said he was known for many years as a person that came to the mic and asked questions and raised issues, and he certainly can appreciate the members of the public to come here and do that.
- E. Commissioner Milakovic addressed Ms. Robinson's question about the traffic light that the past administrator was instructed to explore. It did happen and he came back with a fee and then was told to stop.

Commissioner Milakovic instructed Township Manager LeBlanc to have the Township staff that whenever there are items like the Agreement with Paxtang that all the Commissioners get this in time so we can review and have

REGULAR MEETING II

SWATARA TOWNSHIP

MARCH 9, 2016

BOARD OF COMMISSIONERS

questions? Township Manager LeBlanc asked if e-mail was fine? He said that was fine.

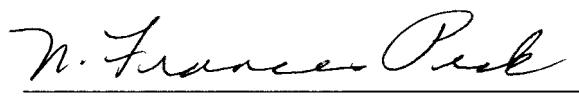

- F. Commissioner Chiavetta had no comments.
- G. Commissioner Varner asked about handicap parking sign on Highland Street? Chief Umberger said it should have been done, he will remind him again.
- H. President Troxell thanked everyone for coming out and sharing with us some of the issues and concerns that they have. He also noted that some of the questions, some issues, he said he won't sit here and debate it. Ask your question, that's fine. He will get back to you at an appropriate time. But for the sake of others that are attending the meeting, instead of dragging things out, he would be more than happy to speak with them later. It is more respectful for all the people who are here throughout the evening.

President Troxell gave kudos to Jan LeBlanc, the new manager. Throughout the process she really persevered, working out of the back room, but the thing is, with the help of the rest of the staff, the administration has really turned things around and we are finding money. We are finding real dollars, as she pointed out the \$420,000, that was spent on mitigation projects. For me, tracking that throughout the years, it's disturbing that other administrations had let that type of money actually leave. Because what you noticed is that we had to actually go back on paper and borrow against our Capital Reserve Fund. These monies were actually receivable credit. So, I am just so grateful that she is doing the work she's doing, the administration, Mr. Fosselman and the relationships with the Chief. It is an exciting time to be here as a resident in the Township and he thanked them all for coming out.

22. Correspondence:

- A. Office of Consumer Advocate: PA PUC v. UGI - Gas Division.
- B. Beulah Baptist Church: Request to Use Enhaut Park.

23. Adjournment: Commissioner Chiavetta made a motion to adjourn the meeting. Commissioner Moyer seconded the motion and the motion unanimously carried. The meeting adjourned at 9:12 p.m.

N. Frances Peck

N. Frances Peck, Recording Secretary
